Wiring

- RED - For Power Supply To + 12V DC
- BLACK - Ground
- YELLOW - Synchronization, Flash Pattern Selection and Reset
  - o Connect yellow wires of all light heads together for synchronization.
  - o To change flash patterns, apply + VDC for less than one second and release.
  - o Flash patterns will be reset when YELLOW wires are connected to RED wire for more than 5 seconds.
- WHITE - Alternation
  - o With the power off, connect the WHITE wire from one light head to + VDC and leave the others disconnected. Their patterns will alternate when the light heads are active.

Mounting Options

Grommet Mount

Surface Mount

WARRANTY

Buyers Products Co. warrants all truck/trailer hardware manufactured or distributed by it, to be free from defects in material and workmanship for a period of one year from date of shipment. Parts must be properly installed and used under normal conditions. Any product which has been altered, including modification, misuse, accident or lack of maintenance will not be considered under warranty. Normal wear is excluded. The sole responsibility of Buyers Products Co. under this warranty is limited to repairing or replacing any part or parts which are returned, prepaid, and are found to be defective by Buyers Products Co. Authorization from Buyers Products Co. must be obtained before returning any part. No charges for transportation or labor performed on Buyers' products will be allowed under this warranty.
